## READING

Read the following text and choose the correct answer a, b, c or d to questions 1-5.

#### **The Scorpion Family**

When my son Martin brought home his new pet, I wasn't exactly thrilled. 'How awful,' I hear you say, but don't judge me yet – it was an emperor scorpion! Martin told me that the emperor scorpion is one of the most popular scorpions that are kept as pets. 'They look big and frightening,' he said, 'but they're not particularly dangerous to humans as their sting is quite harmless.' Well, it looked pretty dangerous to me!

Sam has escaped from his tank a few times, and I'll never forget the first time he did. We looked for him all over the house. Finally, I shone a torch behind the sofa and I saw something bright green. I didn't know it at the time, but when you shine a light on emperor scorpions, they become bright green. I thought it was one of my youngest son's toys. Imagine my horror when I picked it up!

Last year we bought Sam a partner called Samantha, and we were then the proud parents of an entire scorpion family. You should have seen the way Samantha carried her babies on her back. I was always afraid that she would drop them and that they would be injured, but she never did.
